**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 February 2002.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

### **DETAILED ACTION**

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 51 to 70 been renumbered 50 to 69.

It is noted that original Claim 51 depends from Claim 50 but there is no original Claim 50 therefore any claim which depends from original Claim 50 is indefinite.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 to 31, 35 to 43, 45, 46, 48, 52 to 60 and 69 drawn to a method, classified in class 75, subclass 484.
- II. Claims 32, 44, 47, 49 to 51, and 61 to 68, drawn to an apparatus, classified in class 266, subclass 177

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used to practice another and materially different process for example a method comprising making metallic iron in a compact in

Art Unit: 1742

which a shell composed of metallic iron is generated and grown on the surface of the compact and slag aggregates inside the shell.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

If group I is elected applicants are required to further elect a species as set forth as follows.

This application contains method claims directed to the following patentably distinct species of the claimed invention:

Species I as evidenced by Claim 1.

Species II as evidenced by Claims 2 to 29.

Species III as evidenced by Claim 30 and 31.

Species IV as evidenced by Claims 35 and 36.

Species V as evidenced by Claims 37 to 41.

Species VI as evidenced by Claims 42 and 43.

Species VII as evidenced by Claims 45 and 69.

Species VIII as evidenced by Claim 46.

Species IX as evidenced by Claim 48.

Species X as evidenced by Claim 52.

Species XI as evidenced by Claim 53 to 55

Species XII as evidenced by Claims 56 to 59.

Species XIII as evidenced by Claim 60

If group II is elected applicants are required to further elect a species as set forth as follows.

This application contains apparatus claims directed to the following patentably distinct species of the claimed invention.

Species XIV as evidenced by Claims 32 to 34.

Species XV as evidenced by Claim 44.

Species XVI as evidenced by Claim 47.

Species XVII as evidenced by Claims 49 to 51.

Species XVIII as evidenced by Claims 61 to 67.

Species XIX as evidenced by Claim 68.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1742

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvyn J. Andrews whose telephone number is 703-308-3739. The examiner can normally be reached on 8:00A.M. to 4:30 P.M..
